

## How to Fold Paper for Snowflakes

Fold the paper along this line first.

Cut out pieces to create a snowflake.  
Open and flatten carefully to reveal  
the snowflake.

Cut along this line.

Snowflakes have six sides. They form in the shape of a hexagon.  
This pattern will help you create a snowflake.

This pattern comes to you from [DesignsFromPenny.com](http://DesignsFromPenny.com) where you can find the complete patterns for snowflakes for cutout crafts and snowflake stencils for painting. Plus you will find many craft projects that you can make with snowflakes.
