

Pattern for Witch's Hat

1. Enlarge on a copy machine until you reach the desired size.
2. Cut out these 2 pieces of the hat in black felt (stiff black felt is even better).
3. Fold this piece so that flat edges are slightly overlapped and use a hot glue gun to attach. You should end up with a cone shape.
4. Place the cone over the center hole of the donut piece making sure the hole is covered and glue around edges.
